## INTRODUCTION:

The College of Medicine is committed to its mission to provide high standard and effective education for future medical professionals & produce excellent, quality healthcare through innovative research & collaboration with partners in different health sectors to deliver impactful community services. In order to fulfill this, the college have affiliated with the health care institutions in the Al Hassa area.

The institutions were chosen for their strategic location, community service, and certification for the high-quality medical care they provide. The majority of the training hospitals were built for community services, but they have been approved by the Saudi Commission of Health Specialties for training reasons and are fully equipped with all clinical training facilities.

So far, ten state-of-the-art facilities have been made accessible for clinical training in several disciplines. All of the facilities are being used for 4<sup>th</sup> year, 5<sup>th</sup> year, and Internship clinical training. These schools provide students' unparalleled opportunity to acquire diagnostic and treatment techniques in practically all medical and surgical specialties, as well as a solid foundation in general medicine. Our clinical sites give unparalleled chances to gain hands-on experience and a profound understanding of community issues and difficulties. A qualified team is constantly accessible to instruct our students in all disciplines and specialties, in addition to facilities.

## COLLEGE OF MEDICINE MISSION STATEMENT

### COLLEGE MISSION:

Provide high standard and effective education for future medical professionals & produce excellent, quality healthcare through innovative research & collaboration with partners in different health sectors to deliver impactful community services.

### COLLEGE VISION:

To become the role model in Medical Education, Research and Promotion of community's Health in the kingdom.

### VALUES:

1. Responsible citizenship
2. Integration based on interdisciplinary, innovation in originating, producing, and applying knowledge
3. Respect for ideas, opinions, and diversity
4. Justice that boots transparency and belonging
5. Empowerment of expertise and capabilities
