

NEUROLOGY CURRICULUM

COURSE DURATION: 3 WEEKS CLINICAL CLERKSHIP
COURSE UNITS: 3 CREDIT HOURS

COURSE OBJECTIVES :

Through this clinical rotation and lectures, it is expected that students will be competent to:

1. Take through comprehensive history in a systematic manner from the patient
2. Perform through neurological examination in a systematic manner
3. Interpret the neurological findings in the context of history and examination and present rational differential diagnosis with justification

MODE OF TEACHING:

Bedside teaching ward rounds, lectures, tutorials, and clinical seminars

EVALUATION :

1.	Continuous assessment	30%
2.	Written exam	30%
3.	Clinical Exam	40%

- The continuous assessment will be based on attendance, logbook and participation in clinicopathological conferences (CPC)
- The clinical exam will be conducted at the end of the Neurology clinical rotation.
