KING FAISAL UNIVERSITY
جامعة ووطن.. نماء.. واستدامة.

Let us work together in a secure community

by sticking to the following instructions:

Remember

With our cooperation and our commitment to the instructions, we will overcome crises

appearing the Security Lock on the website addresses while digitally purchasing via internet including buying the medical supplies, and make sure to purchase from trusted electronic stores.

updating the operating systems, firewall and virus resistance in a steady manner.

not sharing any information concerning your university accounts with anyone else.

erratic email messages about taking part in questionnaires concerning the coronavirus dealing with diagnosing cases of infection, or requesting donations as an emergency plan to face the coronavirus might expose your device to penetration.

email messages containing malicious files or links from fabricated government parties or tables of statistics about the coronavirus or software bearing the name of the coronavirus aiming at stealing the data of the profession.

false awareness campaigns about the coronavirus which appear when using the internet browser, the applications of smart devices, the email, the WhatsApp, text messages, etc.

Ignore

securing your devices through privacy settings and the necessary protective programs, and do not allow anyone to use them.

adopting the use of private mode when navigating and browsing through the internet.

activating the desktop security or operate the screen protection through the password when you stop working on your device.
