

My Job Portal

بوابة وظيفتي

Introduction

My job portal is an electronic portal through which one can apply for the university academic and administrative jobs for Saudis or non-Saudis. Administrators in charge at the Deanship of Faculty Affairs can announce through the portal the applications and operation management after the announcement and communicate with the applicants. The portal consists of the following systems:

1

Teaching Assistant and Lecturer Job System

It is a system that allows Saudi holders of a bachelor's and master's degree to apply for the job of teaching assistant and lecturer at the university. It also allows the applicant to follow up his application, and the party requiring the job to review the applications.

2

Contract Job System

It is a system which allows Saudi nationals to apply for jobs at the university through the contract system. It also enables the applicant to follow up his application, and the party requiring the job to review the application.

3

Master's and PhD Holder Job System

It is an electronic system that enables Saudi nationals holding a Master's or PhD degree to apply for jobs. It also enables the applicant to follow up his/her application, and the party requiring the job to review the application. The system is subject to be locked into and off round the clock.

4

Official Job System

It is a system that allows Saudi nationals to apply for official jobs at the university. It also allows the applicant to follow up his application, and the party seeking the job to review the application and select the candidate.

5

Job Attraction System

It is a system available round the clock which enables non-Saudi PhD holders to apply for jobs at the university, and enables the college dean as well, or the one to be authorized to follow up the application through reviewing the applicant's data.
