Future Outlook

Capitalize on resources and unique opportunities

- The unique geographical location of the university.
- The national, regional, and global socio-economic opportunities and priorities.
- The wider community of national higher education development and initiatives.
- The wide flow of young generation seeking learning and enablement opportunities
- The accumulative resources of scientists and well equipped academic, research and training facilities.
- The wide network of active interaction and partnership with local and international societal, academic, research and development, business, and industry organizations and other authorities.
- The well established heritage of the university in service of the community

Thank You
